

Parsis Solution is a specialized oil and energy supplier in associations with world class global manufacturers with highest level of quality and commitment.

Parsis Solution Co. along with qualified engineers provides its demanding clients with outstanding technical consultation, comprehensive procurement services and solutions at reasonable rates.

# Services

With a quarter century of professional experiences in Oil and gas industry, we apply our market knowledge to meet governmental and private potential customer's requirements by recommending appropriate solution to them.

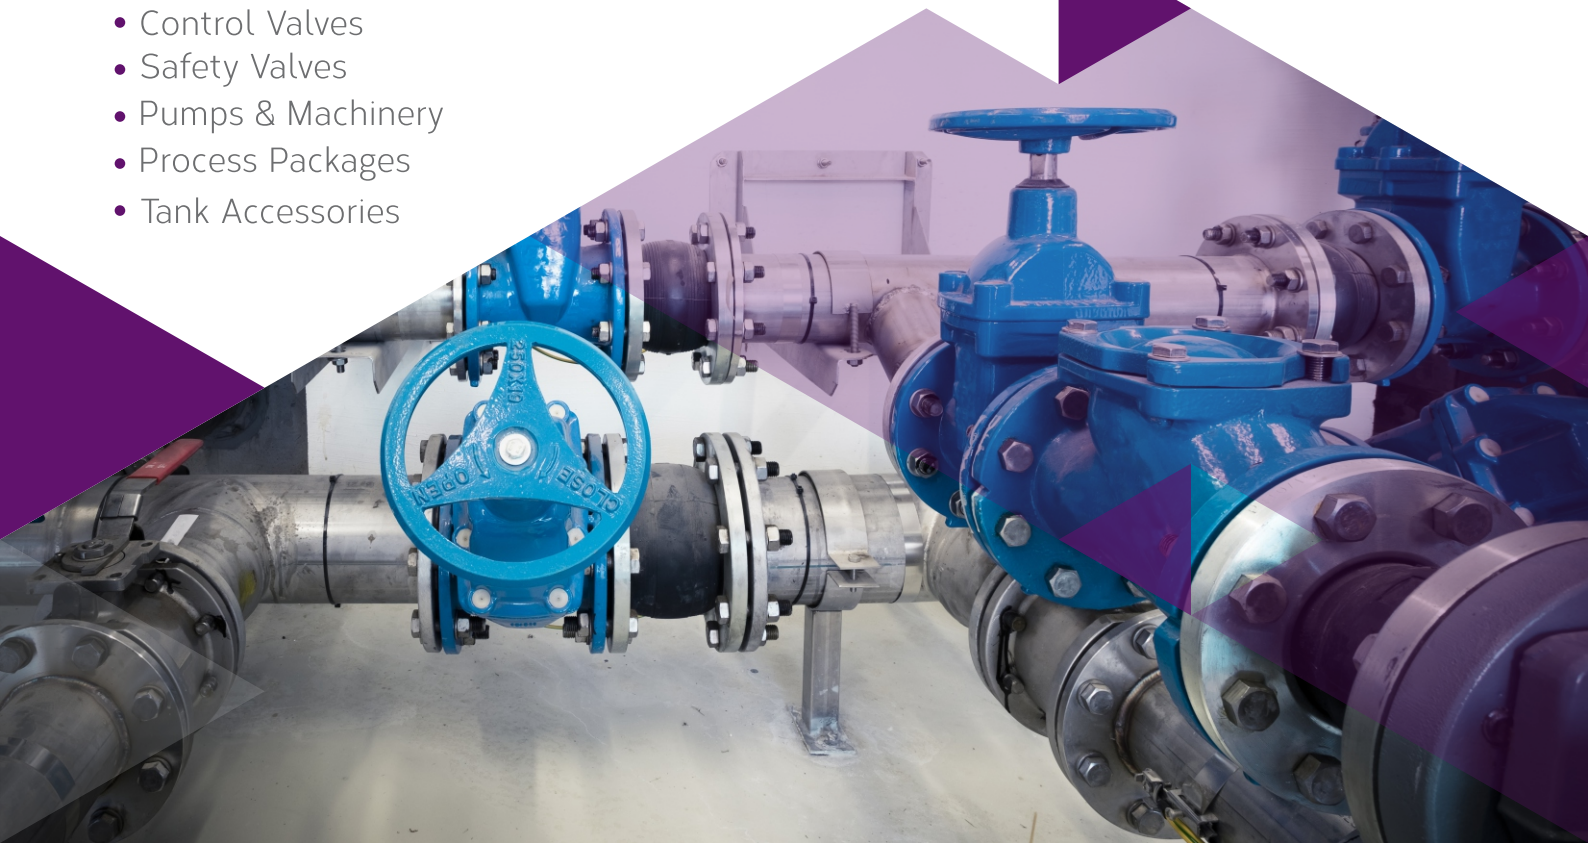

## We provide Total solution

- Design optimization consultancy
- Comprehensive procurement services
- After sales supports
- Manufacturing or Stock based

## Products Range:

- Pipeline and Piping Material(Pipe/Fitting/Flange/Gasket)
- Manual Valves
- Motorized Valves
- Control Valves
- Safety Valves
- Pumps & Machinery
- Process Packages
- Tank Accessories

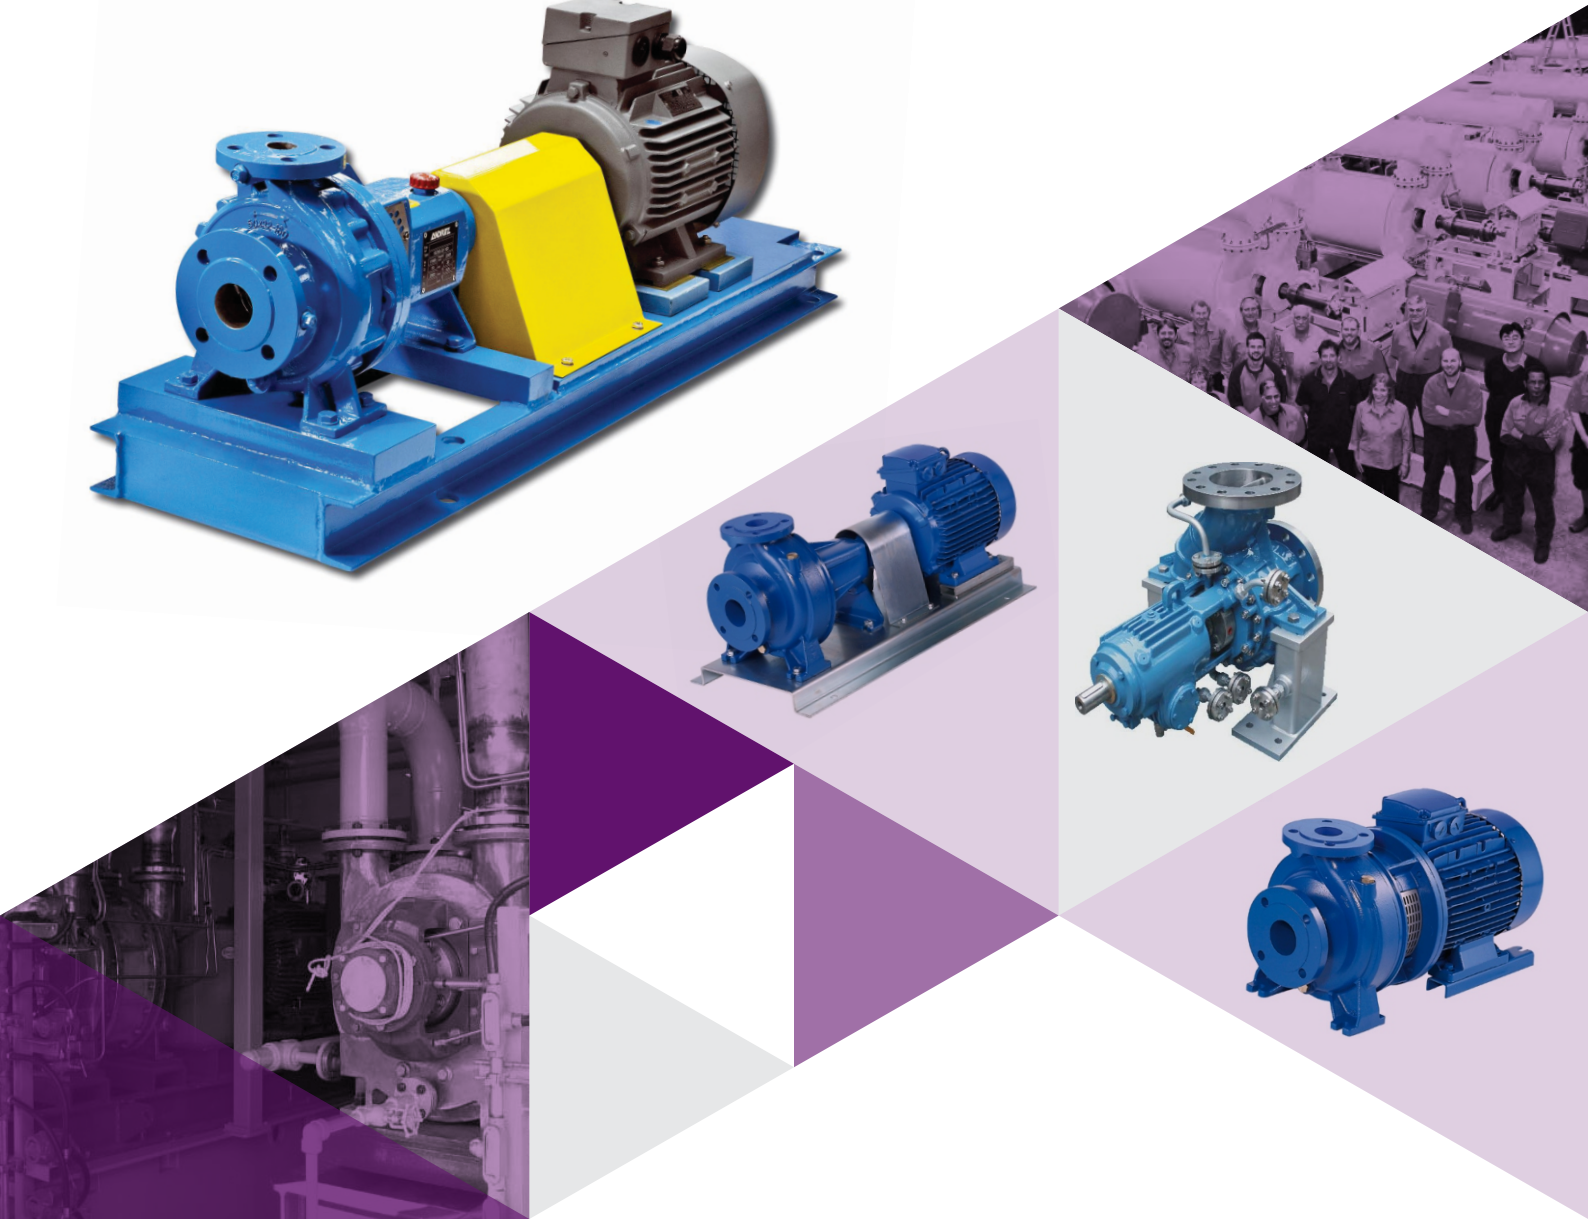

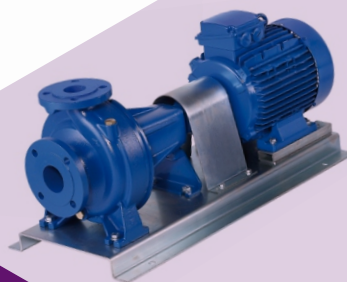

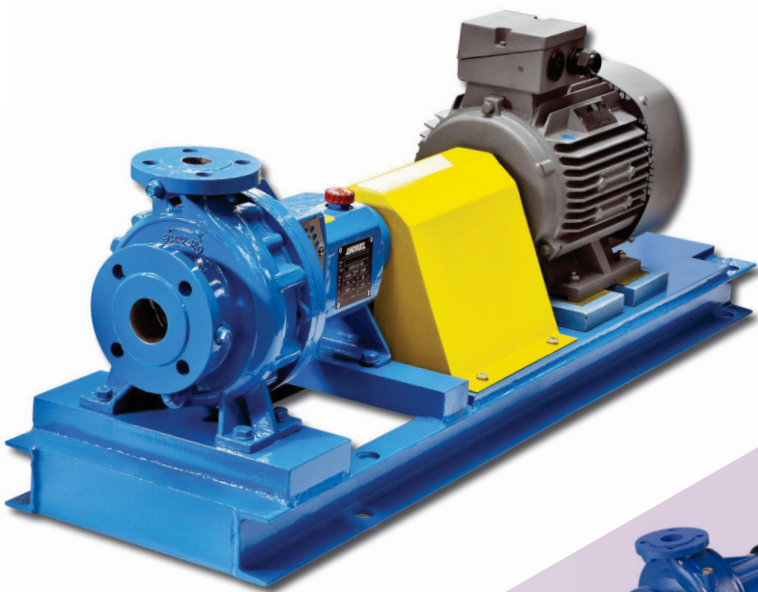

**KENFLO**, with foundation in 1954, is located in the hinterland of the Pearl River Delta - Foshan city; and convert to private enterprises in 2000. With more than 60 years experience of pump designing and manufacturing, **KENFLO** is a global leader & expert in fluid equipment design and manufacture; the originator of the big size liquid ring vacuum pump in China; and a leader of big size centrifugal pump with high efficiency.

Kenflo  
Pumps

### Range of Products:

- ISO Single Stage Centrifugal Pumps
- KPS series Double-suction centrifugal pumps
- KCC series standardized chemical pumps
- KHP Horizontal axially split casing multistage pump
- 2BW Liquid ring pump package
- 2BE1/CBF Liquid-ring vacuum pump
- KPP single end suction chemical process pump

## Wan chi Steel Pipe

**Wanchi** Steel Pipe Qinhuangdao Co., Ltd., is a wholly foreign-owned enterprise and is invested by Taiwan **WANCHI** Group. It is the first enterprise with an area of more than 300 acres in China having the ability to produce API-5L "Large Diameter SAW pipe" and also applies 3 LPE coating as well as heat-treatment process. Our products apply extensively to oil or gas pipeline, oil and gas receiving station, petrochemicals, coals, offshore suction drain pipeline, steel structure for building and piles of wharfs and on-shore platforms, etc. **WANCHI** attaches great importance on the quality and always sticks to the firm belief of "Quality First", and has acquired many international and national system approvals

like API-5L, API-2B, ISO 9001

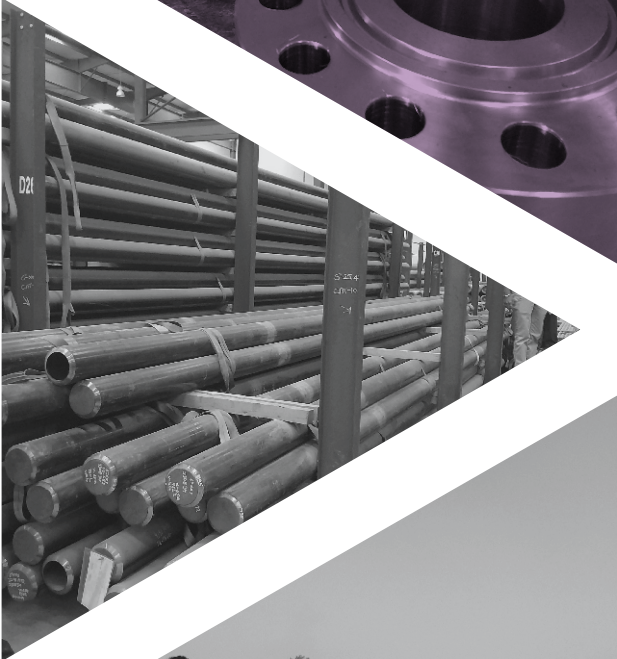

and PED, ISO 14001,

OHSAS 18001.

At present, the advantages of large diameter welded steel pipe in WANCHI is mainly reflected in the reasonable assembly line work, which can be revealed from ultrasonic inspection detector, edge milling machine to hydraulic machine, and especially the professionally welded rack suitable for double weld of large diameter to professional 1000 tons rounding machine for large diameter pipe, as well as end beveling machine for the large diameter pipe, wanchi also has the line RT automatic testing equipment for the inspection with the diameter up to maximum 3000mm, and the hydrostatic press machine for large diameter which ensure that all the required equipment is available for the manufacturing of welded steel pipe with diameter of 18" - 100" and wall thickness of 6mm - 60mm.

## Current Projects:

### South Yaran Oilfield Development

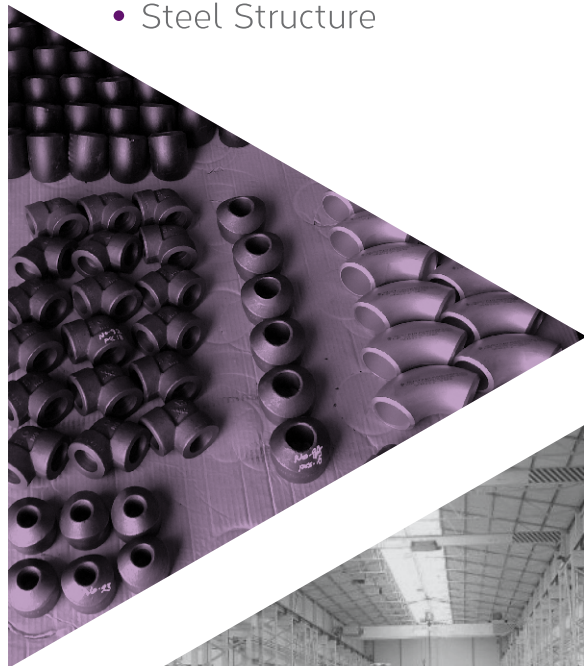

- Piping Material
- Loose Pipes

### South Azadegan Oilfield Development

- Fitting & Flanges
- Loose Pipes

### South Oil Company of Iraq

- Motorized Valves
- Piping Material
- Steel Structure

Buy without limitation...

## **Globally Connected, Locally invested**

Parsis solution co. in associations with world class manufacturers with superior quality product and commitment provides procurement solution, most wanted by the customers.

Delivering outstanding services to our customers and investing on people and relationship is our priorities which lead us providing world edge technologies to the Iranian clients and localize by manufacturing in Iran.

Equipment you can count on, people you can trust

**Make a customer, not a sale**
